Constitutional Amendments

November #1

"Do you support an amendment to require that federal revenues received by the state generated from Outer Continental Shelf alternative or renewable energy production be deposited into the Coastal Protection and Restoration Fund?"

- **YES.** This amendment forces some revenues from "green energy" to be placed in a fund for coastal protection.

December #1

"Do you support an amendment to allow the supreme court to sanction a judge upon an investigation by the judiciary commission, and provide that the recommended sanction shall be instituted by the judiciary commission or by a majority of the supreme court, and to provide for the appointment of five members of the judiciary commission?"

- **YES.** This amendment allows for greater oversight of Louisiana judges.

December #2

“Do you support an amendment to require that the legislature wait for at least forty-eight hours prior to concurring in a conference committee report or amendments to a bill appropriating money?”

- **NO.** This amendment unnecessarily constitutionalizes procedural rules and would lead to less efficiency.

December #3

“Do you support an amendment to allow the legislature to extend a regular session in increments of two days up to a maximum of six days if necessary to pass a bill appropriating money?”

- **NO.** This amendment has the same effect stated for #2 and would create a process which would likely be abused.

December #4

“Do you support an amendment to eliminate mandatory tax sales for nonpayment of property taxes and require the legislature to provide for such procedures by law; to limit the amount of penalty and interest on delinquent property taxes; and to provide for the postponement of property tax payments under certain circumstances?”

- **YES.** This amendment fixes the tax sale system which has become complicated and promotes commerce.
